Corporate Training

Continuing, Corporate, & Community Education (C3)

C3 offers high-quality training to business and industry to help companies optimize their workforce. We provide traditional facilitator-led training, technology-based learning, or a combination of both to ensure customized training solutions that work!

Essential Skills

While technical skills are important, most often, employers cite essential skills as reasons for not hiring, not promoting, and even firing promising employees. With C3, expertise and an employer's investment in training can produce results.

- Time/Stress Management
- Train The Trainer
- Customer Service
- Communication
- Effective Teams
- Sales
- Leadership/Supervisor/Management
- Problem Solving

Computer Training & Applications

C3 offers computer workshops that range from introductory through advanced, as well as highly specialized software applications.

- MS Office Applications
- QuickBooks
- Project Management
- CAD
- Social Media

Manufacturing

The South Suburban region is a source of manufacturing jobs opportunities and career upgrades. C3 experts can train, retrain and remediate for employee skill improvement.

- Hazard Analysis and Critical Control Point (HACCP)
- ISO-Audit & Updates
- Lean Solutions
- Maintenance
- Welding-Stick, MIG & TIG
- Safety Quality Forklift
- Manufacturing Skill Standard Council (MSSC)
- PLC
- Blueprint Reading
- OSHA

Human Resource Services

Human Resources departments handle many responsibilities. C3 has the resources you need to stay on top of essential HR functions.

- Performance Evaluations
- Diversity/Discrimination/Harassment
- Policy and Procedure Manuals
- Hiring and Onboarding

This summer enrichment program will teach students to learn about organized opportunities and engage in working individually. Ideal Labs are designed to offer professional development that is close to practice and fosters collaborative communities in which students continue to learn from one another and develop shared practices. The students will spend time collaborating on daily design in the idea lab, where they will be experimenting and breaking apart what they have built, along with using reading, writing & math to solve the challenges of the design.

KFK C75–Aged-Up Enrichment

Fee \$359 (6th - 8th grade)

This summer enrichment program will introduce them to HTML and CSS coding languages to build a basic website and teach them how to build their own video game. This level will build their skills daily and inspire them well using sophisticated tools to create an amazing project with character. The students will spend part of every day building & creative confidence as they turn a personal vision and use reading, writing & math into a polished Steam project to take home.
